Professional Summary

Frontend Developer with 1+ years of hands-on experience (internship through production role) building fast, scalable, user-centric web applications using Next.js, React.js, and modern JavaScript. Skilled in translating Figma designs into pixel-perfect, responsive interfaces using HTML5, CSS3, SASS/SCSS, and Tailwind CSS, with working knowledge of Next.js SSR/CSR, and functional JavaScript . Experienced building Single & Multi-Page Applications, improving SEO/Lighthouse performance, and collaborating with designers and backend engineers in Agile teams.

Professional Experience

Junior MERN Stack Developer (Frontend-focused), *Webeyecraft Technologies* 06/2025 – Present

- Developed and maintained production-level Single & Multi-Page Applications using React.js and Next.js (SSR/CSR).
- Translated Figma designs into responsive, pixel-perfect interfaces using HTML5, CSS3, SASS/SCSS, and Tailwind CSS.
- Integrated RESTful APIs and third-party services, handling asynchronous requests and partial page updates.
- Debugged and resolved production issues, improving frontend performance and user experience.
- Partnered with designers and backend developers in an Agile, cross-functional environment.

MERN Stack Developer – Intern, *Webeyecraft Technologies* 03/2025 – 06/2025

- Worked on real-world client projects with a focus on frontend UI development and responsive web design, translating Figma mockups into functional interfaces.
- Built reusable, scalable UI components using React.js, SASS/SCSS, and component-based architecture principles.
- Assisted in deployment and post-deployment support for live production applications.
- Implemented requirement-based UI changes driven by direct client feedback.

MERN Stack – Intern, *Luminar Technolab* 09/2023 – 03/2024

- Developed frontend interfaces using HTML, CSS, JavaScript, and React.js.
- Gained hands-on experience in component-based development, state management, and responsive design.

Key Projects

Real-World Client Projects, *Webeyecraft Technologies Pvt. Ltd.*

- Delivered multiple production-ready frontend web applications end-to-end, from UI development through deployment and post-deployment support.
- Implemented responsive layouts and reusable UI components; integrated REST APIs and deployed projects to live environments.
- Optimized frontend performance and incorporated real client feedback into iterative UI improvements.
- Stack: React.js · JavaScript (ES6+) · REST APIs · Responsive Design · Git

UI/UX Designed E-Commerce Website

- Designed and developed a fully responsive e-commerce website with a strong focus on UI/UX and modern design principles.
- Built interactive frontend components for product listing, navigation, and checkout flow to ensure a smooth shopping experience across devices.
- Applied performance optimization techniques for faster load times and improved Lighthouse scores.
- Stack: React.js · Tailwind CSS · SASS/SCSS · JavaScript · Responsive / Mobile-First Design

Project Fair – Internship Project

- Developed a web platform for presenting and managing multiple project showcases with clean, responsive layouts.
- Built structured, reusable components using React.js, improving visual consistency and user navigation.
- Collaborated within a team to translate requirements into functional, user-friendly interfaces.
- Stack: React.js · Component-Based Architecture · Responsive Design

Education

MERN Stack Development, *Luminar Technolab* 2023 – 2024

B.Sc. Computer Science, *Chinmaya Mission College, Kerala University* 2020 – 2023

Higher Secondary Education, *St. Antony's, Pudukad* 2018 – 2020

Key Skills

Frontend Technologies

- JavaScript (ES6+), Next.js, React.js
- HTML5, CSS3, SASS/SCSS, Tailwind CSS, Bootstrap
- Next.js SSR & CSR (server & client-side rendering)
- Single Page & Multi-Page Applications
- Redux / React Hooks (useState, useEffect, useContext)
- JSON & DOM manipulation

Performance & Optimization

- Code splitting & lazy loading
- SEO optimization for React / Next.js
- Lighthouse performance tuning
- Cross-browser compatibility

Soft Skills

Problem-solving mindset, Fast learner & self-motivated, Team collaboration, Excellent verbal & written communication

UI/UX & Design Collaboration

- Figma to code (design-to-development handoff)
- Pixel-perfect, responsive & mobile-first design
- Component-based architecture
- Accessibility best practices (WCAG)

Tools & Workflow

- Git, GitHub, VS Code, Chrome DevTools
- Agile development workflow
- Production builds & deployment
- Debugging & bug fixing
